<section>
<article><h1>How To Book?</h1>
<p><font color="black">Now, suppose you are travelling to Goa, press the 'Domestic' button. After
typing Goa under the 'Search' header, select your option. Then, enter the check-in and check-out
dates, and tell us the number of adults and children, for whom the booking is to be made. On
clicking the 'Search Hotels' button, all the accommodation options are displayed on a single page.
To make your task easier, our portal is provided with filters that you can use to narrow down your
search. You can refine the results on the basis of star category, location, area, price range and even
the facilities you want.</p></article>
